1.0 – QUESTIONS AND ANSWERS

The following questions and answers are provided as a matter of information to clarify issues raised about the Proposal Documents.

Item	Questions and Answers
1.1	<p>Q. On page 18 of the bid document it states that "The successful Vendor shall prepare working, shop drawings, erection diagrams, and a material list as required to show the proper construction of the building..." and then point i. states "A total of two copies each of the working drawings and material lists shall be submitted with the bidder's bid." Does this mean we need to provide engineer stamped plans with the bids? It seems strange to require contractors to purchase engineer stamped drawings which could cost up to \$1,000+ prior to being awarded the bid.</p> <p>A. This will only be required from Awarded Vendor.</p>
